DRAFT LETTER TO JAPANESE CANADIAN CLAIMANTS

The Co-operative Committee on Japanese Canadians in consultation with the National Japanese Canadian Citizens' Association have undertaken to assist Japanese Canadians to present their claims to the Commissioner, The Honourable Mr. Justice Bird, who has been appointed by the Dominion Government to investigate losses caused by the sale at less than fair market value or the loss of real or personal property vested in the Custodian.

The Commissioner has published a notice requiring all claimants to file claims in duplicate verified by statutory declarations sent to the office of the Custodian, Royal Bank Bldg., Vancouver, B.C. on or before November 30th, 1947.

The Co-operative Committee have printed forms complying with the requirements of the Commissioner and duplicate forms are attached to this letter. These form should be completed and sent to the above address as soon as possible. We suggest sending them by registered mail. The forms when completed should be taken to a lawyer or Justice of the Peace or other person with authority to take declarations and the statutory declarations should be signed and completed before him. Every effort should be made to put fair and moderate valuations on property lost or sold. Exaggerated claims may prejudice not only the individual claimant but also other claimants. On the other hand in giving estimaets of value of land or personal property exact knowledge is not necessary;

fairest and best estimate possible should be made. Where the information required is not known by the claimant ~~the form~~ a statement should be written ~~should be left blank in respect~~ to the particulars that are not known. The amount of the claim for loss, however, must be completed. Application may be made to any of the legal firms or lawyers listed below for assistance in completing the forms. After the forms have been filed the Commissioner proposes to visit various centres in each Province in Canada to hear evidence from the claimants. This evidence will be given orally and will consist of evidence given by the claimants themselves and evidence of others who may be able to verify statements as to property left behind and its condition and value. Later, evidence will probably be given in British Columbia as to the values of property.

The Co-operative Committee have arranged in co-operation with the National Japanese Canadian Citizens' Association to provide legal assistance to claimants in presenting their evidence and putting forward their case. While claimants are of course entitled to secure whatever legal advice and assistance they see fit it is believed that it will save money and be more efficient if lawyers representing the claimants act in co-operation and under the general guidance of the Co-operative Committee and of the National Japanese Canadian Citizens' Association and its affiliated organizations.

A partial list of lawyers representing the Committee is set out below and legal and other expenses such as valuators' fees are to be taken care of by payment of the claimants of a retaining fee of 1% of the ~~lost~~ claim. This payment will be made to the

If you wish to avail yourself of the assistance provided by the Committee you are requested to fill in the ~~duplicate~~ form addressed to the Cooperative Committee in your Province attached hereto and send it out to the person listed below and if you are not able to send the fee the Committee will still be willing to represent you subject to the advice of the National Japanese Canadian Citizens' Association and you should indicate this by putting a check mark in the attached form in the appropriate place. It is essential that this ~~duplicate~~ form be sent as soon as possible so that lawyers may be assigned to your case and may secure full information and beable to get in touch with you for consultation before the hearing.

the purpose outlined in your various statement of seeing that full justice is done to Japanese Canadians.

It is quite clear that much of the loss sustained by these innocent persons as a result of the evacuation order preceded any action by the Custodian, and the mere fact of the evacuation orders would have substantially depreciate property values before the Custodian took over. Our case for fair treatment has never been based upon any allegations that the Custodian or his representatives acted improperly. Our case is based on the other hand on the claim that where innocent persons through no fault of their own were required to leave their property owing to government policy, that they should be entitled to the loss fairly arising out of these evacuation orders.

This is the principle set out in the bill before Congress. The Secretary of the Interior Mr. Krug in his letter asking for the American legislation has pointed out that the evacuation orders gave the persons affected little time in which to settle their affairs. Stocks and businesses were disposed of at sacrificed prices. Personal possessions were sold for a small fraction of their value, and inadequate arrangements for protection and management of property were made. Buildings were broken into and vandalized and in various other ways long before the War Relocation Authority, our Custodian of enemy alien property, took possession, serious losses were sustained. No doubt the action of the Custodian of enemy alien property sometimes prevented loss even if there may have been some cases of sales by the Custodian at sacrificed prices. In any event the sales made by the Custodian would be in a market which could not possibly reflect a fair valuation at the time of the losses by the Japanese Canadians.

We feel a very strong responsibility to urge upon you that an Order-in-Council providing for an investigation of property losses in narrow terms suggested by the Secretary of State in his reference in Parliament above referred to, would in no way satisfy either the Japanese Canadians or those many people across Canada who are interested that full justice has been done.

We have no doubt that it is the desired view of government as indeed the people of Canada to see that full and fair compensation is made to the innocent victims of necessary government policy. We think it would be most unfortunate if through the narrowness of the terms of reference it could still be said that justice had not been done to the Japanese Canadians.

In other connections in regard to the proposed deportation and the continuance of restrictions there has as you know been great public interest and considerable feeling on both sides.

We respectfully urge you and your Cabinet therefore to see that the terms of the American bill be followed, so that full justice may be done and we can assure you of the co-operation of our Committee in seeing that the claims are fairly and properly presented without exaggeration.
